3. POLICY

At Liverpool Progressive School we recognise that the personal development of pupils, spiritually, morally, socially and culturally plays a significant part in their ability to learn and achieve. We therefore aim to provide an education that provides children with opportunities to explore and develop their own values and beliefs, spiritual awareness, high standards of personal behaviour, a positive caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and richness of other cultures.

Liverpool Progressive School

Social, Moral, Spiritual and Cultural Education

All curriculum areas have a contribution to the child's spiritual, moral, social and cultural development and opportunities for this will be planned in each area of the curriculum.

Values, principles and spirituality will be explored in the curriculum. The integrity and spirituality of other faith backgrounds will be respected and explored. The diversity of spirituality will be recognised, and pupils will be given access to alternative views.

All adults will model and promote expected behaviour, treating all people as valuable individuals and showing respect for pupils and their families. Children should learn to differentiate between right and wrong in as far as their actions affect other people. They will be encouraged to value themselves and others.

Children should understand the need for rules and the need to abide by rules for the good of everyone. School and classroom rules should reflect, reiterate, promote and reward acceptable behaviour and provide opportunities to celebrate pupils' work and achievements.

All curriculum areas should seek to use illustrations and examples drawn from as wide a range of cultural contexts as possible. This will be reflected in the teacher's planning and learning resources in addition to the Social, Moral, Spiritual and Cultural Co-ordinator's guidance documents.
